

# Who we are

AVERT is a UK-based organisation that has been working at the forefront of HIV education for the past 30 years.

Through our award-winning educational website, other digital channels, and partnerships with local civil society organisations working in some of the hardest hit countries, we reached 10 million people last year with information, tools and resources that empowered them with knowledge to take action on HIV.

## Vision, mission and values

AVERT's vision is a world with no new HIV infections, where those living with HIV get the support they need.
