

HIV Fact sheets

Whether you belong to a group of people at high risk of HIV infection or simply want to know how it is transmitted and prevented, our downloadable fact sheets are here to help.

You may find these useful for your own personal knowledge, to share with friends or colleagues, or to use in the workplace or schools to educate others.

[HIV transmission fact sheet](#)

Learn how HIV is passed on so that you can protect yourself from the virus.

[HIV testing fact sheet](#)

The only way to know if you have HIV is to take a test. Find out what to expect.

[Emergency HIV treatment \(PEP\) fact sheet](#)

PEP is treatment for if you might have been exposed to HIV in the last 72 hours.
