HIV timeline - key fact no.3

27 January 2017

1988 HIV timeline fact.

An infographic with a light blue background and a bar chart. The year '1988' is written in large blue numbers. A speech bubble contains text about World AIDS Day. A dark blue banner at the bottom contains a call to action and the AVERT logo.

1988

The first World AIDS Day is held on 1 December 1988 – and every year since – to remember, show solidarity and raise awareness.
