

# HIV and AIDS in Thailand

07 August 2020

Thailand accounts for a large proportion of the total number of people living with HIV in Asia and the Pacific. The epidemic is declining, yet 470,000 people still live with HIV in Thailand.

## Thailand (2019)

**470,000** people living with HIV

**1%** adult HIV prevalence

**5,400** new HIV infections

**14,000** AIDS-related deaths

**80%** adults on antiretroviral treatment\*

**66%** children on antiretroviral treatment\*

\*All adults/children living with HIV
