In our Young Voices videos you'll meet characters facing dilemmas around sex and relationships – the same kinds of situations that may affect you, your friends, or your peers.

Whether it’s dating older people, an unhealthy relationship, having sex without a condom, being able to say no to sex, contraception options, sharing an HIV status, or sexual consent – these are big decisions.

Through our characters’ stories you can get key information about each topic, think about their situations, and create a comic where YOU decide how their stories end.
